

El-Live's First Performance Report

09.09.2021

Intro :

The Cyber Bulwrk Team investigated the issues that were slowing down the website as discussed in the previous report such as plugins pending updates & image optimization etc.

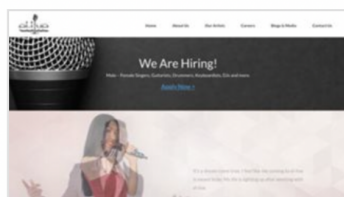

What We Did :

We started off by updating the plugins to their latest version to get better performance output & to increase our website security.

Next, we optimized the images so they should load faster as a lot of content on the website is related to media (video & images).

Below is the comparison for both Latest & Previous Stats

Old Performance Report :

Latest Performance Report for: http://el-live.com/

Report generated: Mon, Sep 6, 2021 4:09 AM -0700
Test Server Location: 🇨🇦 Vancouver, Canada
Using: 🌐 Chrome (Desktop) 90.0.4430.212, Lighthouse 7.4.0

GTmetrix Grade ?

C	Performance ? 74%	Structure ? 90%

New Plugins Detail :

The screenshot shows the WordPress 'Plugins' page. On the left is a sidebar menu with options like 'Custom CSS & JS', 'Albums', 'Appearance', 'Plugins' (selected), 'Installed Plugins', 'Add New', 'Users', 'Tools', 'All-in-One WP Migration', 'Settings', 'SEO', 'Pods Admin', 'WP Security', 'Loginizer Security', 'Ultimate Social Media Icons', 'Video PopUp', 'Divi', and 'Collapse menu'. The main content area has a top bar with filters: 'All (26) | Active (20) | Inactive (6) | Drop-in (1) | Auto-updates Enabled (7) | Auto-updates Disabled (19)'. Below this is a 'Bulk actions' dropdown and an 'Apply' button. A search bar 'Search installed plugins...' is on the right. The table below lists 7 plugins, each with a checkbox, name, description, version, author, and an 'Automatic Updates' link.

<input type="checkbox"/> Filester - File Manager Pro Deactivate	Made to help you focus on WordPress file management and avoid being distracted. Version 1.7.3 By Ninja Team View details	Enable auto-updates

What Is Our Next Step :

We'll keep an eye on the reports & performance of the website for the next week to know that everything is in order & working fine.

Then we'll move further to work on other available options to improve more speed time & performance such as updating themes etc but we need to be very careful with that so we don't recommend you do update themes on your own to avoid any kind of issues.

Notes From Cyber Bulwark :

They say **"A picture is worth a thousand words"**

You can clearly see the difference between both the reports & you'll notice a huge performance difference as only the images that are required will load on runtime which eventually helped us to get better performance reports.

As always,

The **Cyber Bulwark** team will keep you posted regarding all the updates & will always be available for any kind of technical support via the Cyber Bulwark's Portal.

Until, Next Time.

Take Care

Regards,

Support Team at **Cyber Bulwark**
